When visiting a MedImpact pharmacy

To help ensure your prescriptions are processed as quickly as possible, please give the pharmacist your gold and white ID card with the MedImpact logo, along with the message at the bottom of this page. This should clear up any questions the pharmacist may have about your coverage.

Some prescriptions may require certain utilization reviews such as prior authorization, step therapy, quantity limits, or age edits. While these programs are intended to promote safe and effective drug use, they may cause certain limitations. To find out which drugs may require utilization review, please refer to your plan's drug formulary at kp.org/kpic-california. Just select the formulary that applies to your plan. MedImpact pharmacies will work directly with your doctor to get the information needed to process your prescription.

If you have any questions about your benefits, call the KPIC Customer Service line at **1-800-788-0710**, Monday through Friday, 7 a.m. to 7 p.m.
